

GYEONGHUI JEONG

Product/UI Designer & Front-end UI Developer

Daegu, South Korea | hello@huicreates.com | github.com/Hui-OwO | linkedin.com/in/huicreates | huicreates.com

PROFESSIONAL SUMMARY

Results-driven Product/UI Designer and Front-end UI Developer with an industrial design foundation, focused on accessible, responsive interfaces from Figma to hand-coded HTML/CSS/JavaScript. Detail-oriented self-starter with 760+ hours of UI/UX and web publishing training, 4 end-to-end redesign projects, and a live portfolio at huicreates.com.

SKILLS

Technical Skills: UI/UX Design | Prototyping | Design Systems | Usability Testing | Web Accessibility | Responsive Front-end Development

Tools: Figma | HTML5/CSS3 | JavaScript (ES6+) | Git/GitHub | Rhino 3D | Blender | KeyShot | Claude | GitHub Copilot

PROFESSIONAL EXPERIENCE

UI/UX DESIGN & WEB PUBLISHING TRAINEE | JUL 2025 – NOV 2025

Yoonseong DX Academy, Daegu, South Korea

A 760-hour UI/UX & web publishing intensive based on a public-sector RFP; owned design and front-end delivery end to end.

- **Responsive Web Development:** Designed and shipped huicreates.com by hand-coding semantic HTML/CSS/JavaScript (ES6+); verified responsive behavior across 3 breakpoints and 4 browsers
- **Web Accessibility:** Resolved 30+ W3C validation errors and tested accessibility against WCAG 2.0 with NVDA screen reader and OpenWAX
- **Usability Testing & Prototyping:** Improved a Berlin Phil app redesign concept by reducing navigation from 5 to 4 tabs after identifying 3 core usability issues; redesigned 11 screens as an interactive Figma prototype
- **Design-to-Code Translation:** Delivered 3 concept website redesigns for Seoul Metropolitan Government, KERI, and Rotary, translating wireframes and high-fidelity Figma designs into HTML5/CSS3 on GitHub Pages

ADDITIONAL EXPERIENCE

GUEST EXPERIENCE ASSOCIATE | DEC 2023 – PRESENT

Wedding Meridien, Daegu, South Korea

Coordinated guest communication for 6–8 weddings per day (~200 guests each) on peak weekends.

UI & BRAND DESIGN | MAR 2021 – SEP 2021

Like Lion Online Hackathon, South Korea

Designed the UI grid system and visual identity for a 3-page MVP delivered within a 12-day deadline.

EDUCATION

Bachelor of Fine Arts in Art & Craft (Metal Craft & Product Design)

Konkuk University, Seoul, South Korea | Mar 2021 – Aug 2025

- **Capstone:** Redesigned a failed joint system into a production-ready tensegrity stool using Rhino 3D and 1:1 prototyping
